Section 1: Instruction to Bidders

1 Introduction

Madhya Pradesh is the second largest Indian State in size with an area of 308,000 sq. km. The population of Madhya Pradesh in 2023 is around 8.5 crores. Agriculture plays a vital role in the state of Madhya Pradesh (MP), India, and has a significant impact on the population and the overall economy of the state.

The MP State has diverse agro-climatic conditions, making it suitable for the cultivation of a wide range of crops. Major crops grown in the state include soybean, wheat, rice, maize, pulses, oilseeds, cotton, sugarcane, and a wide variety of fruits, vegetables and spices. Madhya Pradesh is an agrarian state; the contribution of the agriculture sector to the GVA of MP was 28.6% for FY 2019-20. Agriculture, with its allied sectors, is the largest source of livelihood in Madhya Pradesh with around 70% of rural households, directly-indirectly, still dependent on agriculture for their livelihood. The state government implements various initiatives to support farmers, enhance agricultural productivity, and promote sustainable farming practices to ensure the well-being of the population dependent on agriculture.

State leadership is committed to extend seamless information and identified services to farmers on a single integrated platform. The Vision in the State is *“To connect all stakeholders to a common seamless platform to render the relevant information for planning & decision making at all levels, effectively monitor the availability of quality inputs, provide critical assistance to the eligible farmers at their doorstep, facilitate market-oriented price realization and encourage capital formation in agriculture sector to achieve targeted growth & ultimate goal of increasing the income of farmer.”*

The emphasis is on the development of a connected ecosystem for integrated service delivery and basic infrastructure in emerging technologies such as Remote Sensing and GIS, Internet of Things, Data Analytics, Artificial Intelligence & Machine learning, Block Chain Technology, and to encourage data-based decision making in the agriculture sector. An integrated mobile platform with various services is aligned to provide land record and agriculture sector services to the farmers. More services are currently being developed to provide mobile-based integrated services to farmers and the IT infra at district and block level offices has also been updated. The monitoring and management of input quality control, tracking and analysis of demonstrations lay down under various schemes, seed production etc. are transformed with digital interventions. The area specific information on various schemes, the latest advanced agricultural systems technology, availability and hire services of agricultural equipment, Weather, Market price are made available to farmers through the integrated MP Kisan mobile app/ web portal. eVikas, the e-token based distribution and delivery of regulated chemical fertilizer has revolutionized the fertilizer distribution and monitoring in the state and is being replicated across India like many other initiatives of the state.

The state has taken up a project on Use of Remote Sensing and GIS to assess land usage, watershed development, and cropping mechanism”. An AGRI-GIS portal is developed and enriched with related data sets and information products. The crop area, condition and productivity assessments are shifted to RST, GIS and Geotagged mobile based surveys for quick and accurate assessments. Crop Insurance solutions have been implemented all over Madhya Pradesh state - 5 - with the support of MPSEDC, MPCST and NRSC (ISRO), that has paved the way for YES Tech at national level.

In order to ensure the geo referenced primary data from the field, the cutting edge departmental field force, Rural Agriculture Extension Officer (RAEO) are equipped with Smart Handheld devices to take up Geo referenced survey work like Smart sampling based CCE, Ground truthing for crop yield assessments, mapping of farm level nutrient status, beneficiaries and field level demonstration and reaching out to the latest technological and departmental information to disseminate it among the farmers further. Besides, the pilot projects on precision farming and micro weather-based advisories leveraging emerging technologies have also been successfully implemented, and the state is keen to expand it at a larger scale. Further Agristack has been integrated to extend seamless integration among various service delivery platforms and bring the entire sector stakeholder to a contributing relationship.

2 Objective

- 2.1 To enhance operational efficiency, ensure compliance with digital standards, and improve transparency for farmers, inspectors, and administrators, MP proposes to develop software.
- 2.2 The bidder shall design and develop a configurable software solution to digitally enable implementation of various schemes, including beneficiary registrations, scheme workflows, activity tracking etc. as well as MIS, as per guidelines issued by the Central/State government Department from time to time.
- 2.3 End to End digitalization of processes, monitoring and management-The solution shall provide end-to-end digital workflows covering planning, execution, monitoring, and reporting of all scheme-related processes, with role-based access, real-time dashboards, alerts, and analytics to support effective decision-making.
- 2.4 Certification, accreditation and marketing linkages-The system shall include modules to manage and track certification and accreditation processes and facilitate digital linkage with marketing platforms, aggregators, and institutional buyers, enabling visibility of certified produce and market access for stakeholders.
- 2.5 Fund flow process automation-The software shall automate fund flow processes including sanction management, beneficiary mapping, milestone-based disbursement tracking, utilization monitoring, and financial reporting, with provisions for audit trails and compliance with applicable financial rules.
- 2.6 Integration with required third party services Govt. portal-The solution shall be designed to support secure, scalable, and API-based integration with relevant Government of India and State Government portals, payment gateways, and third-party services to enable seamless data exchange and interoperability.
- 2.7 Accordingly, the Government of Madhya Pradesh invites proposals from qualified and experienced service providers for the design, development, implementation, and support of an integrated software solution. The project aims to digitize and streamline inspection processes, certification management, data analytics, and reporting through a secure and scalable IT platform. The ownership, and accountability of the developed software solutions remain with the Department, and the data will be hosted at the State Data Centre. This Request for Proposal (RFP) is being issued under a Two-Envelope Bidding Process to select a competent service provider capable of delivering the proposed solution in line with the objectives of the Directorate of Farmer Welfare & Agriculture Development of the State.

3 Instructions to bidders

- 3.1 Bidders must carefully read and understand this document, including all technical requirements.
- 3.2 Technical Bid documents must be uploaded online on mptender.gov.in as per the prescribed schedule. Late submissions will not be accepted.
- 3.3 Bidders shall complete the tender form and submit all required documents with sufficient details. Evaluation will be based on stated qualification criteria and failure to submit prescribed supporting document will result in rejection of bid
- 3.4 Please ensure that only the requested supporting documents are provided and the specific page number/range containing the prescribed information piece is specified in the checklist.
- 3.5 All documents must be in English, and each page of the tender document must be signed, numbered, and stamped as acceptance of the RFP terms. Unsigned or unstamped documents will be rejected.
- 3.6 Any bidder found to have submitted false, misleading, or incorrect information shall be disqualified.
- 3.7 The successful bidder must, within 15 days of the Letter of Acceptance, submit:
 - a. Performance Security / Security Deposit in prescribed mode

- 3.8 The ITB outlines the bidding procedure and prescribed formats as provided in Section-III of the RFP. Non-compliance or incomplete submissions will lead to disqualification.
- 3.9 Submission of a bid implies unconditional acceptance of all RFP terms. No additional conditions or enquiries regarding acceptance or rejection will be entertained. Any attempt to influence officials will result in disqualification.
- 3.10 All information submitted by bidders shall be contractually binding upon award of the contract.
- 3.11 No contractual obligation shall arise until a formal written contract is executed. The Department reserves the right to cancel the procurement process at any stage prior to contract execution.
- 3.12 This RFP supersedes all previous communications or documents, and bidders shall not rely on any prior information.
- 3.13 The Bid and all related correspondence shall be prepared in English and prices shall be quoted in Indian Rupees (INR) only.
- 3.14 The Technical Bid shall be submitted online through www.mptenders.gov.in and opened as per the key dates. Bidders or their authorized representatives may attend the opening, if desired.
- 3.15 The Bid shall be typewritten, and all pages shall be duly signed by an authorized signatory. Any corrections or overwriting must be authenticated by signature.
- 3.16 The Bidder shall bear all costs related to participation in the RFP process. The Department shall not be liable for any such costs, irrespective of the outcome.
- 3.17 Complete bids must be submitted online within the deadline specified in the NIT. Late bids or bids submitted through email, fax, telegram, or other modes shall not be accepted, and no correspondence will be entertained.
- 3.18 Bids may be withdrawn, substituted, or modified only before the submission deadline through written notice duly signed by an authorized representative. No changes shall be permitted after the deadline until the expiry of the bid validity period.
- 3.19 The Department may, at any time before the bid submission deadline, amend the RFP through addendum(s), either on its own initiative or in response to bidder clarifications.
- 3.20 Such addendum(s) shall form part of the RFP. If required, the Department may extend the bid submission deadline to allow bidders reasonable time to incorporate the amendments. No request from bidders shall be binding on the Department.
- 3.21 Bidders must carefully study all instructions, terms, requirements, and formats of the RFP. Submission of a bid shall be deemed as full understanding and acceptance of the RFP conditions.
- 3.22 Proposals that do not comply with the RFP requirements may be treated as non-compliant and rejected.
- 3.23 Bidders shall:
- a. Submit all documents specified in the RFP;
 - b. Follow the prescribed format and sequence; and
 - c. Comply with all requirements of the RFP

4 Directions to the Bidder

- 4.1 The bidders shall submit the proposal as per scope mentioned in this RFP.
- 4.2 The bidders can bid for a single software application or all software applications mentioned in the **“Section 4: Schedule of Requirements - Scope of Software applications”** explained below.
- 4.3 The bidders have any doubt about the meaning of any portion of the RFP Specifications or find discrepancies/ omission in the tender documents issued or shall require clarification on any of the technical aspect, scope of work etc., shall submit the clarification to the Department before the pre-bid meeting date as mentioned in the Key dates.

- 4.4 The prospective bidder requiring any clarification on the tender shall submit the Queries in Editable Word format along with pdf in the format as follows:

Clarifications: Technical/ Commercial/ General				
Item No.	Tender Clause/ Section	Page Number	Original Tender Text/ Requirement	Clarification/ Question Requested

- 4.5 Bidders are reminded that, if necessary, at its sole discretion of Department may ask for any clarification regarding the submitted tender and/or other documents.

- s. ITB- Instructions to the Bidder Any other term(s) not defined herein above but defined elsewhere in this RFP shall have the meaning(s) ascribed to such term(s) therein and shall be deemed to have been included in this Section.

5.2 INTERPRETATION

In the interpretation of this RFP, unless the context otherwise requires:

- a. The singular of any defined term includes the plural and vice versa, and any word or expression defined in the singular has the corresponding meaning used in the plural and vice versa;
- b. Reference to any gender includes the other gender;
- c. Unless otherwise stated, a reference to a Clause, Sub-Clause, Paragraph, Subparagraph, Annex, Exhibit, Attachment, Schedule or Recital is a reference to a Clause, Sub-Clause, Paragraph, Subparagraph, Annex, Exhibit, Attachment, Schedule or Recital of this RFP;
- d. A reference to any agreement is a reference to that agreement and all annexes, attachments, exhibits, schedules, appendices and the like incorporated therein, as the same may be amended, modified, supplemented, waived, varied, added to, substituted, replaced, renewed or extended, from time to time, in accordance with the terms thereof;
- e. The terms “include” and “including” shall be deemed to be followed by the words “without limitation”, whether so followed;
- f. Any reference to a person shall include such person’s successors and permitted assignees.
- g. A reference to a “writing” or “written” includes printing, typing, lithography and other means of reproducing words in a visible form;
- h. Any date or period set forth in this RFP shall be such date or period as may be extended pursuant to the terms of this RFP;
- i. A reference to “month” shall mean a calendar month, a reference to “week” shall mean a calendar week and a reference to “day” shall mean a calendar day, unless otherwise specified.
- j. The terms "hereof", "Herein", "hereto", "hereunder" or similar expressions used in this RFP mean and refer to this RFP and not to any Article, Clause or Section of this RFP. The terms "Article", "Clause", "Paragraph" and "Schedule" mean and refer to the Article, Clause, Paragraph and Schedule of this RFP so specified;
- k. The descriptive headings of Articles and Sections are inserted solely for convenience of reference and are not intended as complete or accurate descriptions of content thereof and shall not be used to interpret the provisions of this Agreement;
- l. All capitalized words and expressions used in the RFP but not defined therein shall have the same meaning as ascribed to them in the Agreement.
- m. Each Bidder shall submit only one bid. A Bidder who submits or participates in more than one Bid (either solely or as consortium member, if permitted) will cause all the proposals with the Bidder’s participation to be disqualified.
- n. This RFP is not transferable
- o. Each Bidder shall submit only one bid. A Bidder who submits or participates in more than one Bid (either solely or as consortium member, if permitted) will cause all the proposals with the Bidder’s participation to be disqualified.

6 Financial bid

- 6.1 The bidder shall have to quote subscription Price Offer in format referred in Bid Data sheet online. The financial offers shall be submitted individually for both or any one components. Evaluation is based on QCBS (70:30) basis.

- 6.2 Prices quoted by the Bidder shall be fixed during the Bidder's performance of the Contract and not subject to variation on any account. Bid submitted with an adjustable price quotation shall be treated as nonresponsive and shall be rejected.

7 Pre-Bid Conference

- 7.1 A pre-bid conference will be held on the date specified in the RFP (Schedule of Bidding Process), as mentioned at the Key dates table at the location specified by Department.
- 7.2 The purpose of the pre-bid conference will be to clarify queries of the Bidders related to the Project and RFP document, if any.
- 7.3 Non-attendance at the Pre-Bid Meeting will not be a cause for disqualification of a Bidder. However, the terms and conditions of the Addendum(s) will be binding on all the Bidders irrespective of their attendance at the Pre-Bid Meeting
- 7.4 Department shall not be responsible for ensuring that the Bidders' queries have been received by it. Any requests for clarifications after the indicated date and time may not be entertained by Department.
- 7.5 The Bidders should submit the queries in writing through e-mail and the same should reach to Department at least two (2) working days before the pre-bid conference.
- 7.6 Clarification & Corrigendum (if any) shall only be uploaded at www.mptenders.gov.in portal.

8 Key Requirements of the Bid

- 8.1 Right to Terminate the Process: Department may terminate the RFP process at any time and without assigning any reason. Department makes no commitments, express or implied, that this process will result in a business transaction with anyone.
- 8.2 This RFP does not constitute an offer by Department. The Bidder's participation in this process may result selecting the Bidder for execution of the contract.

9 Consortium & Subcontracting

- 9.1 Consortium bidding and sub-contracting of core scope items are not permitted.
- 9.2 However, use of third-party services such as payment gateways, Aadhaar authentication, SMS/email services, or API-based integrations with the Government or approved platforms shall be allowed, provided overall responsibility and accountability remain with the selected bidder.

10 Submission of Bids

- 10.1 The complete bidding process will be online (e-Tendering) in Two cover system. Electronic submission of bids shall be in accordance with the instructions given in the Table below:

Particulars	Instructions

The Bidder shall furnish documentary evidence / undertakings for all the mentioned requirements along with the technical bid proposal.

Cover 2 (Financial Proposal)	The Financial Proposal shall be prepared in accordance with the requirements specified in this RFP and in the format prescribed by www.mptenders.gov.in of the RFP. Financial Proposal should be submitted online only on www.mpetenders.gov.in
---------------------------------	--

Note: Department will conduct the bid evaluation based on documents submitted through online e- tendering portal.

11 Bid Security (Earnest Money Deposit (EMD))

11.1 The Bid Security may be forfeited

- a. if a Bidder withdraws its Bid during the period of Bid validity specified by the Bidder in the Letter of Bid – Technical Part and repeated in the Letter of Bid - Financial Part – Financial Part, or any extension thereto provided by the Bidder; or
- b. if the successful Bidder fails to: sign the Contract in accordance with RFP,
- c. furnish a performance security in accordance with the time mentioned in RFP.
- d. if a Bidder withdraws its Bid during the period of Bid validity specified by the Bidder on the Letter of Bid – Technical Part and repeated in the Letter of Bid - Financial Part
- e. if a Bidder withdraws its Bid during the period of Bid validity specified by the Bidder on the Letter of Bid – Technical Part and repeated in the Letter of Bid - Financial Part

12 Bid opening

12.1 All Bids shall be opened in the presence of the Bidder's representatives who choose to attend the Bid opening sessions on the specified date, time and address.

12.2 Department always reserves the right to postpone or cancel a scheduled bid opening.

12.3 Bid opening shall be conducted in 2 (two) stages;

- a. Stage 1 – Technical proposal - online
- b. Stage 2 - Financial Proposal - online

12.4 Only those Bidders who qualify in the Technical Bid evaluation shall be considered for opening of the Financial Bids on www.mpetenders.gov.in. The contract shall be awarded to the Bidder who provides the best value bid.

13 Disqualification

Even though the Bidder meets the pre-qualifying criteria, they could be disqualified if they have:

- 13.1 Made misleading or false representations in the forms, statements and experiences submitted in proof of the qualification requirements.
- 13.2 Submit the tender document, which is not accompanied by the required documents or is non-responsive.
- 13.3 Failed to provide any clarifications related thereto.
- 13.4 Where the bidder has already submitted the tender document and is a member of entity, which has already submitted the tender document, or vice versa.
- 13.5 Violates any other condition mentioned herein before/herein after.
- 13.6 Where the bidder has been declared as defaulter or blacklisted by Department before the date of opening of techno commercial Bid.

14 Taxes

14.1 The Service Provider shall be responsible for all liable taxes. There will be no tax liability upon the Department whatsoever on any account.

- 14.2 The Service Provider indemnifies Department from any claims that may arise from the statutory authorities in connection with this License.
- 14.3 The Service Provider should ensure enforcement of Applicable Laws including Labour Laws, Minimum Wages Laws, etc., and at no point of time should the Department be drawn into litigation on these counts.

15 Preliminary responsiveness

Prior to evaluation of Bids, the Department shall determine whether each Bid is responsive to the requirements of this RFP document. A Bid shall be considered responsive if:

- 15.1 It is received as per the format defined in RFP document.
- 15.2 The bidder should specify the content list along with number of pages providing specified related documents (instruction to bidder...TBC)
- 15.3 It is received by the Bid Due Date including any extension thereof pursuant to Clauses of this RFP;
- 15.4 It is signed, stamped, all pages are numbered. Scan copy uploaded proposal shall be clearly readable with indexing mentioning the Clauses for each document submitted in the proposal;
- 15.5 It is accompanied by the Earnest Money Deposit (EMD);
- 15.6 It is accompanied by the Power(s) of Attorney/board authorization, as it may be applicable;
- 15.7 It contains all the information (complete in all respects) as requested in this RFP document (in formats same as those specified);
- 15.8 It does not contain any condition or deviation;
- 15.9 The bidder has submitted all additional information or clarification as sought by Department within the prescribed period;

16 Right to accept any bid and to reject any or all bids(s)

Department reserves the right to accept or reject any bid, and to annul the tendering process/ public procurement process and reject all bids at any time prior to award of contract, without thereby incurring any liability to the affected Bidder or Bidders or any obligation to inform the affected Bidder or Bidders of the grounds for Department action.

Section 2: Selection Criteria

The Department shall use the criteria and methodologies listed in this clause to determine the Technically responsive bid proposal. The Technically responsive bid proposal is the Bid of the Bidder that meets the pre-qualification criteria & Technical criteria and whose Bid has been determined to be:

17 Pre-Qualification Criteria

If bidders fail to meet pre-qualification criteria, the proposal of such a Bidder will NOT BE evaluated further. The invitation to proposal is open to all bidders who qualify the eligibility criteria as given below:

Chartered Accountant's Certificate clearly indicating the turnover for the specified financial years.
4	The Bidder shall have a positive Net Worth as on 31st March 2025.	Certificate from a Chartered Accountant clearly certifying the Net Worth as on 31st March 2025.
5	The Bidder shall have experience of 2 completed & minimum of three (completed or ongoing) Software implementation/Software development/ IT / ITes for Central/State Government departments/PSU/ Autonomous Govt. Bodies.	Copies of Work Orders / LOI / Agreements / Go-Live or Completion Certificates.
6	The Bidder shall not have been blacklisted or debarred for fraudulent or corrupt practices by any Central Government / State Government / UT Government / Government Department / PSU / Autonomous Body / Educational Institution in India, as on the date of bid submission.	Self-certification on the Bidder's letterhead, duly signed by the Authorized Signatory.

Bidder to submit only relevant Documentary evidence of Registration along with the Bid proposal.

18 Technical Qualification Scoring

S. No.	Criteria	Score criteria	Maximum marks
1	The Bidder shall possess the following valid certifications as on the date of bid submission: 1. ISO 27001:2022 2. ISO 9001:2015 3. ISO 14001:2015	Each certificate 5 marks	15 marks
1.2	CMMI level 3 > CMMI level 3	> CMMI level 3: 10 marks CMMI Level 3: 5 marks	10 marks
2	Technical Presentation of the Solution	1. Understanding of the Scope-10 Marks) 2. High Level design of the proposed solution (including Functional and Technical architecture document-10 Marks)	20 marks
3	Technical Documentation of previous projects		5 marks
4	The bidder should have work experience in Govt domain (preference will be given for experience in Agriculture domain)	4 and above Work Order - 20 marks 3 Work Order - 15 marks 2 Work Order - 10 marks 1 Work Order - 5 marks	20 marks
5	Relevant Project Completion Report as per above Work Order	3 and above Completion Certificate - 15 marks 2 Completion Certificate - 10 marks	15 marks

		1 Completion Certificate - 5 marks	
6	Certification module readiness Market Linkage module readiness Barcode scanning readiness	5 marks for each module readiness	15 marks

Minimum Qualification marks – 70

Only bidders securing at least 70 marks out of 100 shall be considered for opening of financial bids.

19 Selection Criteria QCBS

19.1 Financial bid shall be evaluated separately for each component and the best value bidder will be arrived on the basis of individual quote.

19.2 MP, (Madhya Pradesh State Organic Certification Agency), Bhopal will determine whether the Financial Proposals are complete, unqualified, and unconditional. The cost indicated in the Financial Proposal shall be deemed as final and reflecting the total cost of services. The proposal would be selected based on Quality & Cost with below formula.

- 70% marking to Technical Proposals
- 30% marking to financial proposals with below formulae
- Financial Score is $FL/FQ \times 100$, where FL is Lowest Financial quote bidder, and FQ is financial quote of the bidder,

19.3 Total marks = (70% x Technical Proposal) + (30% x Financial Score)

19.4 Bidder with Highest Total marks would be the selected bidder

19.5 Illustrative Example — Bidders Quoting Different Combinations of Components

This example illustrates how Clause 19.1 (separate evaluation per component) applies when different bidders choose to quote for one or both components. Assume:

- Bidder 1 — quoted for Component A only
- Bidder 2 — quoted for Component B only
- Bidder 3 — quoted for both Component A and Component B
- Bidder 4 — quoted for both Component A and Component B

Lets assume all four have cleared the technical qualification threshold of 70/100 (Clause 18).

Component A — Financial Bids opened for Bidder 1, Bidder 3 and Bidder 4 (Bidder 2 did not quote Component A and is not part of this evaluation):

Bidder	Technical Score	Financial Quote (a+b, Rs.)
Bidder 1	82	42,00,000
Bidder 3	88	45,00,000
Bidder 4	79	40,00,000

FL (Component A) = ₹40,00,000 (Bidder 4's quote — lowest among Component A bidders only)

Bidder Financial Score (FL/FQ×100) Total Marks [(0.70×Tech)+(0.30×Fin.)]

Bidder 1 $40,00,000/42,00,000 \times 100 = 95.24$ $(0.70 \times 82) + (0.30 \times 95.24) = \mathbf{85.97}$

Bidder 3 $40,00,000/45,00,000 \times 100 = 88.89$ $(0.70 \times 88) + (0.30 \times 88.89) = \mathbf{88.27}$

Bidder 4 $40,00,000/40,00,000 \times 100 = 100.00$ $(0.70 \times 79) + (0.30 \times 100.00) = \mathbf{85.30}$

Component A result: Bidder 3 is selected (88.27 marks), with Bidder 1 second and Bidder 4 third, despite Bidder 4 having quoted the lowest price.

Component B — Financial Bids opened for Bidder 2, Bidder 3 and Bidder 4 (Bidder 1 did not quote Component B and is not part of this evaluation):

Bidder	Technical Score	Financial Quote (a+b, Rs.)
Bidder 2	93	25,00,000
Bidder 3	88	23,00,000
Bidder 4	79	24,00,000

FL (Component B) = ₹23,00,000 (Bidder 3's quote — lowest among Component B bidders only)

Bidder Financial Score (FL/FQ×100) Total Marks [(0.70×Tech)+(0.30×Fin.)]

Bidder 2 $23,00,000/25,00,000 \times 100 = 92.00$ $(0.70 \times 93) + (0.30 \times 92.00) = \mathbf{92.70}$

Bidder 3 $23,00,000/23,00,000 \times 100 = 100.00$ $(0.70 \times 88) + (0.30 \times 100.00) = \mathbf{91.60}$

Bidder 4 $23,00,000/24,00,000 \times 100 = 95.83$ $(0.70 \times 79) + (0.30 \times 95.83) = \mathbf{84.05}$

Component B result: Bidder 2 is selected (92.70 marks), ahead of Bidder 3, even though Bidder 3 quoted the lowest price for Component B.

Observations for bidders:

Bidder 3 is selected for Component A but not for Component B, despite quoting both — each component's Total Marks are computed independently, using only the bidders who quoted that specific component and only that component's own FL. A bidder's standing in one component has no bearing on, and is never combined with, its standing in the other.

Bidder 4 quoted both components and is ranked in both evaluations, but is not selected in either — participating in both components does not itself confer any advantage; each remains a fully independent contest decided on that component's own Technical Score and price.

Bidder 1 and Bidder 2, having quoted only one component each, compete only in that component's evaluation and are correctly excluded from the other's FL calculation and ranking.

20 Appointment of Service Provider: Award criteria

- 20.1 After selection of technically responsive and financially offer submitted by the bidder in terms of clauses of this RFP, a letter of award (the “LOA”) shall be issued. Successful bidder (Service Provider/ Service Provider) shall, within 7 (seven) days of the receipt of the LOA, sign and return the copy of the LOA in acknowledgement as unconditional acceptance thereof. In the event the acceptance of the LOA duly signed by the Service Provider is not received by the stipulated date, the department may, unless it consents to extension of time for submission thereof, forfeit the earnest money deposit of such Service Provider as damages on account of failure of the Service Provider to acknowledge the LOA.
- 20.2 Issue of letter of acceptance (LOA) shall not be construed as any right given in favour of the Service Provider, and department reserves the right to annul the process of award, including signing of contract agreement, of this project without any liability or any obligation for such annulment, and without assigning any reasons thereof.

- 20.3 Upon issue of LOA to the Service Provider, department will release the EMD of all Service Providers, as per the online portal process except the Service Provider.
- 20.4 After acknowledgement of the LOA as aforesaid by the Service Provider, it shall cause the Service Provider to execute the contract agreement within the period prescribed. The Service Provider shall not be entitled to seek any deviation, modification, or amendment in the contract agreement.

21 Notification of award

- 21.1 Prior to the expiration of the validity period, Department will notify the successful Bidder in writing or by email and by hardcopy as Letter of Award (LOA), that its proposal has been accepted, in case the tendering process / public procurement process has not been completed within the stipulated period, Department may like to request the Bidders to extend the validity period of the bid.
- 21.2 Upon the successful Bidder's furnishing of Performance Bank Guarantee, Department will notify each unsuccessful Bidder and return their EMD.
- 21.3 Department shall reserve the right to negotiate with the Bidder whose bid has been ranked best value bid of the proposed Project basis the evaluation criteria. On this basis the draft contract agreement would be finalized for award and execution.

22 Performance security

- 22.1 A Performance Security shall be required.
- 22.2 The amount of the Performance Security shall be 3% of the total contract Price, Successful Bidder to submit within 15 days from the date of Work order is issued, Contract Agreement will be signed post submission of the Performance Security, Performance Security shall be valid 60 days beyond the Warranty/Contract period.
- 22.3 The Performance Security shall be in the form of unconditional, Irrevocable Bank Guarantee issued by one of the Scheduled Commercial Banks.
- 22.4 The Performance security shall be in the Indian Rupees currencies of payment of the Contract, in accordance with their portions of the Contract Price.
- 22.5 Discharge of the Performance Security shall take place: (, MP), Directorate of Farmer Welfare & Agriculture Development, Bhopal
- 22.6 In case, the Service Provider fails to submit Performance Security within the time stipulated, the Department at its discretion may cancel the Letter of Award issued to the Service Provider without giving any notice and may invoke the EMD of such Preferred Service Provider.
- 22.7 No interest will be payable to the tenderer on the Performance Security deposited with the Department
- 22.8 The amount of Performance Security as Security deposit shall be forfeited if the Service Provider abandons or fails to perform the contract at any time during the implementation Period. Further, if it is observed at any time during the Contract implementation/ execution & contract period the party has submitted fake/bogus documents in tender to gain the contract then the contract shall be terminated and performance security shall also be forfeited.
- 22.9 The amount of the performance security as security deposit shall be forfeited if the Service Provider fails to perform the contract at any time and in such other events as are elsewhere provided in the contract.

23 Release of performance security

The Performance Bank Guarantee will be released only after meeting all the following conditions:

- 23.1 After successful completion of warranty period of this project;
- 23.2 Payment of all the penalties; if any;

- 23.3 If any deficiency noticed at the time of handing over the Service Provider must get rectified/replaced the same at his own cost within 15 days otherwise Department will get it rectified at the risk and cost of the Service Provider.
- 23.4 On production of clearance for all applicable dues, if any.
- 23.5 Signing of contract agreement

24 Failure to agree with the terms and conditions of the RFP

Failure of the successful Bidder to agree with the Draft Contract Agreement and Terms & Conditions of the RFP within the timelines provided in the LOA shall constitute sufficient grounds for the annulment of the award, in which event Department shall forfeit the Earnest Money Deposit of the successful Bidder and may also invoke the performance bank guarantee of the successful Bidder.

Section 3: General Conditions

This section should be read in conjunction with other sections of RFP. The words and expressions, which are defined in this Section of RFP i.e. Instructions to Bidders (ITB), have the same meaning when used in the other Sections of RFP, unless separately defined. Notwithstanding anything to the contrary contained in this RFP, the detailed terms specified in the draft Contract shall have overriding effect; provided, however, that any conditions or obligations imposed on the Bidder hereunder shall continue to have effect in addition to its obligations under the Contract.

25 Payment Milestone

Timeline	Phase	Key Activities	Key Deliverables	
Month 1	Mobilization and Inception	Kick-off, team mobilization, governance, detailed work plan.	Inception Report and Project Plan	10%
Month 1 to 2	Requirement Gathering	Stakeholder consultations, As-Is study, requirement register.	Requirement Register and As-Is Report	15%
Month 2 to 3	BRD/SRS	Application-wise BRD/SRS, workflows, roles and reports.	Approved BRD/SRS	10%
Month 3 to 4	Solution Design	Architecture, database design, UI/UX, security and integration design.	SDD, prototypes and wireframes	25%
Month 4 to 8	Development	Module-wise development, APIs, dashboards, mobile apps and internal QA.	Developed modules	15%
Month 6 to 9	Integration and Migration	Integration testing, data migration and validation.	Integration and migration reports	10%
Month 8 to 10	Testing and QA	System, performance, security and regression testing.	QA and defect closure reports	10%
Month 10 to 11	UAT and Training	UAT, issue closure, training material and user training.	UAT sign-off and training report	5%
Month 11 to 12	Security Audit and Go-Live	VAPT closure, production deployment, go-live and handover.	Go-Live certificate and handover documents	10%

Support Period	Activity Area	Key Activities	Deliverables	
Quarter 1	Stabilization (AMC)	Production support, issue closure and user handholding.	Stabilization report	25% of annual O&M cost
Quarter 2	Regular O&M	Helpdesk, bug fixing, SLA reporting and preventive maintenance.	Quarterly OCM report	25% of annual O&M cost
Quarter 3	Optimization	Performance tuning, security patch coordination and dashboard refinements.	Performance review report	25% of annual O&M cost
Quarter 4	Transition Readiness	O&M, documentation update, knowledge transfer and annual closure.	Annual support report	25% of annual O&M cost

26 SLA, Delivery Delay and Penalty Clauses

Delay / SLA Event	Penalty
Delay in deliverable up to 1 week	0.5% of corresponding milestone value
Delay more than 1 week up to 2 weeks	1% of corresponding milestone value
Delay more than 2 weeks up to 4 weeks	2% of corresponding milestone value

Delay more than 4 weeks	5% of corresponding milestone value
Go-Live delay attributable to Agency	1% of relevant application/project cost per week, capped at 10%
Monthly availability 99.0% to 99.49%	2% of quarterly O&M payment
Monthly availability 98.0% to 98.99%	5% of quarterly O&M payment
Monthly availability below 98.0%	10% of quarterly O&M payment

Penalty Cap:

Cumulative delay/SLA penalties shall be capped at 10% of total contract value, except fraud, wilful misconduct, data breach or security incident attributable to Agency. Resource deployment penalty is not included because this RFP is for hiring a software development agency, not manpower deployment.

27 Contract Signing & Decision Authority:

Director Directorate of Farmer Welfare & Agriculture Development, Bhopal is the Authority in all respects for the Pre-award and Post award.

28 Jurisdiction of court

The courts located in Bhopal (M.P) only shall have Jurisdiction to try and decide the matter / dispute between the parties.

Section 4: Schedule of Requirements - Scope of Software applications

- ❖ The bidders can bid for a single software application or all software applications mentioned below.
- ❖ The software applications mentioned below need to be implemented in Agile methodology.
- ❖ High Level Scope of the Requirements are briefly described below; detailing of the same will be done in the requirements and design documents prepared by the Agency.
- ❖ All the changes in the scope of requirements mentioned below during the tenure of project i.e. 1 Year (till the software applications are live) will be handled/ implemented by the Agency selected.
- ❖ Resources will also be allocated for the AMC i.e. for monitoring and support of the software applications to ensure stability and performance.
- ❖ Resources will be deployed for Operations and Maintenance of the developed software at the Directorate of Farmer Welfare & Agriculture Development as and when required.

29 Component A - NMNF & SOCA

29.1 The objective of the portal is to:

- Digitally enable farmer onboarding and support
- Ensure transparent implementation of NMNF schemes
- Track livestock-based subsidies (cow rearing support)
- Facilitate certification and monitoring
- Create strong market linkages for naturally produced commodities
- Maintain a centralized repository of trainings and capacity-building activities

Core Functional Modules

1. Interactive portal (web portal and Mobile application (Android and iOS)) for Natural and organic Farming- End to end management
2. Scheme management of Natural farming scheme NMNF (National Mission on Natural Farming)
3. Scheme management for Organic farming scheme PKVY (Pramparagat Krishi Vikas Yojna)
4. Scheme management includes the onboarding of implementation agencies and related stakeholders
5. Integrations with Aadhar and/or Agristack, payment gateway, and messaging services.
6. Scheme and component configuration, and component target allocation and re-allocation, beneficiary selection, field visits and verification/inspections, Subsidy disbursement, tracking and reconciliation.
7. End to end digitalization of complete certification process as per NPOP standards, PGS standards
8. Providing an interactive e-commerce platform that includes onboarding of producers, aggregators, buyers, compliances validation agencies, traceability of the produce till the producer level.
9. Financial reporting and audit
10. SSL certification, Security audit certifications, Certain testing and certification and compliances time to time cyber security advisories, Aadhar and respective payment gateways / financial institutions guidelines and SoPs
11. The Hosting and service infrastructure including cloud should be complied to the respective Gol/ MeiTY guidelines
12. Adherence to the prescribed data and meta data standards.
13. Training including but not limited to stakeholders, users, including video tutorials and manuals, however this does not include the cost of onsite physical training infrastructure.

14. Post Go-Live, the selected bidder shall provide comprehensive operation, support, and maintenance of the solution for the entire contract period, including bug fixes, performance tuning, security updates, and regular backups.
15. The scope shall also include minor enhancements and change requests as approved by the Department, ensuring continued availability and optimal performance of the system.

29.2 Certification

a. To design a secure, scalable, and interoperable certification platform for:

- Agency registration & empanelment
- Inspection, training, and certification management
- End-to-end traceability of certified produce
- Transparency for consumers

Module	Key Outcome	User View
Farmer Module	Onboarding, certification tracking, records	• Inspection status (pending / completed) • Certificate access • Training content access
Inspector / Agency Module	Scheduling, inspection, reporting	• New Inspection • Incomplete Inspection • Past Inspections • Inspection report upload • Automatic date & time stamping
Certification Authority	Review, approval, certificate issuance	• List of inspectors & agencies • Inspection status (milestone-wise) • Summary dashboard • Report view & print • Certificate generation and verification using mobile based coding mechanism
Consumer Module	QR-based verification	
Admin & Analytics	Monitoring, MIS, dashboards	

b. Admin Functions

- Define SOPs, milestones, and payment stages
- Create / modify inspection fields & workflows
- Configure milestone-based payments
- Create / manage agency registration forms
- Enable multiple agencies per farm ID
- Map all inspection/testing records to land parcel

c. Multiple Agency per Farm (Key Principle)

- Same farm ID can have multiple agencies
- Different agencies may handle:
 - Documentation inspection
 - Soil testing
 - Input / residue testing
- All outputs mapped to a single land record

d. Inspector / Certification Partner Functions

- Upload inspection documents
- Add local groups / field inspectors
- Assign role-based access
- Monitor field staff activities
- View farmer-wise inspection reports
- Upload training videos (YouTube / Vimeo / links)
- Grant farmers access to training content

e. Record Project Implementation Plan (PIP) on the portal

- Objectives, scope, milestones, timelines
- District / cluster rollout plan
- Resource allocation
- Risk & mitigation strategy

f. Farmer Data Collection & Compliance

- Aadhaar-based authentication (masked)
- Land records, geo-coordinates via API
- Last 3 years' farm & input history
- Consent-based data usage
- Compliance with DPDPA, 2023
- Farmer-controlled data visibility

g. Audit, Inspection & Compliance

- Periodic inspections (configurable by admin)
- Verification of practices, inputs & traceability
- Geo-tagged photos & digital checklists
- Field visit reports
- Grievance redressal & corrective actions
- Optional IoT-based residue / soil testing

h. Reporting & Deliverables

- Inspector remarks per visit
- System-generated periodic reports
- Auto date & time stamping of inspections

i. Certification & Inspection Module

- Farmer group and individual certification workflows
- Integration with PGS certification systems
- Inspection scheduling and assignment
- Digital inspection reports
- Certificate generation and download
- Validity tracking and renewal alerts

j. Training & Capacity Building Module

- All training conducted by the Directorate should be digitized and recorded on the portal. The features are listed below:
 - Training calendar management
 - Registration of participants
 - Trainer and resource person database
 - Upload of training materials (videos, PDFs, presentations)
 - Attendance tracking
 - Post-training assessment and feedback

- Training Impact Analytics

29.3 Integrated Portal:

a. User Categories & Registration

The portal shall support role-based registration, login, and dashboards for the following stakeholders:

Farmers

- Registration with Aadhaar/alternative ID authentication
- Land details, crop details, farming practice type (Natural / Organic / Regenerative)
- Livestock details (especially cows under NMNF)
- Bank account details for DBT

Certifiers / Resource Centres (RC)

- Registration of recognized certification bodies
- Allocation of farmers for inspection and certification
- Upload of inspection reports and certificates

Promoters (CSO / FPO / NGO)

- Registration of promoting institutions
- Farmer mobilization and mapping
- Training and extension activity reporting

Buyers

- Registration of domestic buyers
- Commodity-wise demand posting
- Direct farmer / FPO linkage

Exporters

- Exporter registration and validation
- Integration with APEDA
- Export-oriented product discovery

Processors

- Registration of agri-processors
- Raw material requirement mapping
- Contract farming / procurement visibility

Bio-input Resource Centres

- Registration of bio-input producers and Service Providers
- Product catalogue (Jeevamrit, Beejamrit, botanical inputs, etc.)
- Farmer access to verified inputs

b. Farming Practice Coverage

The portal shall support and distinguish between:

- **Natural Farming**
- **Organic Farming**
- **Regenerative Farming**

Each practice shall have:

- Defined standards and guidelines
- Practice-specific advisory content

- Certification and compliance workflows

c. NMNF Cow-Based Subsidy Management Module

Under the National Mission on Natural Farming, the portal shall support end-to-end subsidy management related to cow rearing.

Farmer Selection

- Eligibility criteria configuration
- Application submission by farmers
- Verification by promoters / field officers

Cow Registration & Tracking

- Unique cow ID generation
- Breed, age, and health details
- Geo-tagging and periodic verification
- Photo/video-based validation

Recommendation & Approval Workflow

- Multi-level recommendation (Field → District → State)
- Digital approvals with audit trail
- Status tracking for applicants

Monitoring & Compliance

- Periodic monitoring reports
- Usage verification of subsidy support
- Alerts for non-compliance

Subsidy Release (DBT)

- Integration with DBT portal
- Automated payment trigger upon approval
- Transaction status and reconciliation

d. Market Linkage Module

The portal shall act as a digital marketplace for natural and organic produce.

Key Features:

- Commodity-wise listing by farmers/FPOs
- Buyer, exporter, and processor demand posting
- Location-based matching
- Quality and certification visibility
- Direct contact and transaction facilitation
- Analytics on price trends and demand-supply gaps

29.4 Barcode Tracking

The purpose is to design, develop, and implement a **barcode-based tracking system** to monitor and manage products throughout the value chain, from procurement and production to warehousing, distribution, and final delivery. The system will provide real-time visibility, traceability, and reporting for all stakeholders.

- Enable barcode-based identification of products, batches, and shipments

- Track movement of goods across the entire supply/value chain
 - Improve inventory accuracy and reduce manual data entry
 - Provide end-to-end traceability for compliance and quality control
 - Generate real-time analytics and operational reports
- a. **Barcode Scanning Module**
 - Support scanning using handheld barcode scanners and mobile devices
 - Generate unique barcodes/QR codes for items, cartons, pallets, and batches
 - Validate scanned data against system records
 - Allow offline scanning with synchronization when connectivity is restored
 - b. **Product and Batch Management**
 - Master database for products, SKUs, raw materials, and finished goods
 - Batch/lot creation and tracking
 - Expiry date and manufacturing date capture
 - Linking raw materials to finished product batches
 - c. **Value Chain Tracking and Traceability**
 - Track product movement through key stages:
 - Procurement
 - Manufacturing/Processing
 - Packaging
 - Warehousing
 - Transportation
 - Distribution
 - Retail/End Delivery
 - Record each transaction/event with:
 - Location
 - Timestamp
 - Operator/User
 - Quantity and status
 - d. **Inventory and Warehouse Management**
 - Real-time stock updates through scan events
 - Stock inward/outward processes
 - Bin/location tracking within warehouses
 - Alerts for low stock, damaged goods, or mismatched scans
 - e. **Order and Shipment Tracking**
 - Integration of barcode scanning in dispatch and delivery workflows
 - Shipment creation and tracking
 - Proof of delivery capture (signature/photo optional)
 - Tracking of returns and reverse logistics
 - f. **User Roles and Access Control**
 - Role-based access for different stakeholders such as:
 - Admin
 - Warehouse Operator
 - Production Supervisor
 - Logistics Manager
 - Retail Partner
 - Audit trails for all system activities

g. Reporting and Dashboard

- Configurable dashboards for management
- Standard reports including:
 - Inventory status
 - Batch traceability
 - Movement history
 - Delivery performance
 - Loss/damage reports
- Export options (PDF, Excel, CSV)

h. Integration and APIs

- API support for integration with:
 - ERP systems
 - Accounting software
 - Transport management systems
 - Supplier/customer portals

i. Deliverables

- Barcode scanning mobile/web application
 - Value chain tracking platform
 - Admin dashboard and reporting suite
 - User manuals and training materials
 - Integration of APIs and technical documentation
 - Maintenance and support plan

j. Expected Outcomes

- Complete traceability of products across the supply chain
- Reduction in manual errors and inventory discrepancies
- Faster dispatch and delivery verification
- Improved compliance and transparency in operations

29.5 Integration, Monitoring, Reporting, Deliverables and Outcome

a. Integration with External Portals & Systems

The portal shall support secure API-based integration with the following platforms:

- AgriStack – Farmer and land data interoperability
- MP Kisan Portal – State farmer data synchronization
- NMNF Portal – Mission-level reporting and compliance
- Soil Health Card (SHC) Portal – Soil data access
- Krishi Mapper – GIS and land mapping
- DBT Portal – Subsidy disbursement
- PGS Portal – Organic / natural certification
- APEDA Portal – Export facilitation and traceability

b. Monitoring, Reporting & Analytics

- Real-time dashboards for state and district officials
- Scheme-wise and component-wise reports
- GIS-based visualization of farmers and assets
- Custom MIS reports
- Data export and audit support

c. Security, Compliance & Governance

- Role-based access control
- Data encryption and secure hosting
- Audit logs and activity tracking

- Compliance with Government of India IT and data policies
- Scalability for future schemes and modules

d. Deliverables

- Fully functional web- and mobile based portal/app
- Mobile-responsive design
- API integration with external systems
- User manuals and training documentation
- Technical support and maintenance

e. Expected Outcomes

- Transparent implementation of NMNF, PKVY, and related schemes of Natural and Organic farming
- Transparent and seamless certification process, PGS and NPOP
- Improved farmer adoption of natural/organic farming
- Efficient subsidy utilization
- Strengthened certification ecosystem
- Robust market access for farmers
- Centralized digital agriculture governance platform

30 Component B - Monitoring of Seed Quality and Traceability (MSQT)

To establish a **transparent, efficient, and end-to-end mechanism for monitoring seed quality and ensuring seed traceability**, it is proposed to develop a dedicated portal named **MSQT (Monitoring of Seed Quality and Traceability)**.

The proposed MSQT portal will be integrated with the **SATHI (Seed Authentication, Traceability and Holistic Inventory) Portal**, which is presently operational.

In addition, MSQT will integrate with relevant **procurement, farmer, land, human-resource and subsidy-management systems** to enable real-time data validation, cross-verification and monitoring.

Proposed System Integrations is detailed below: -

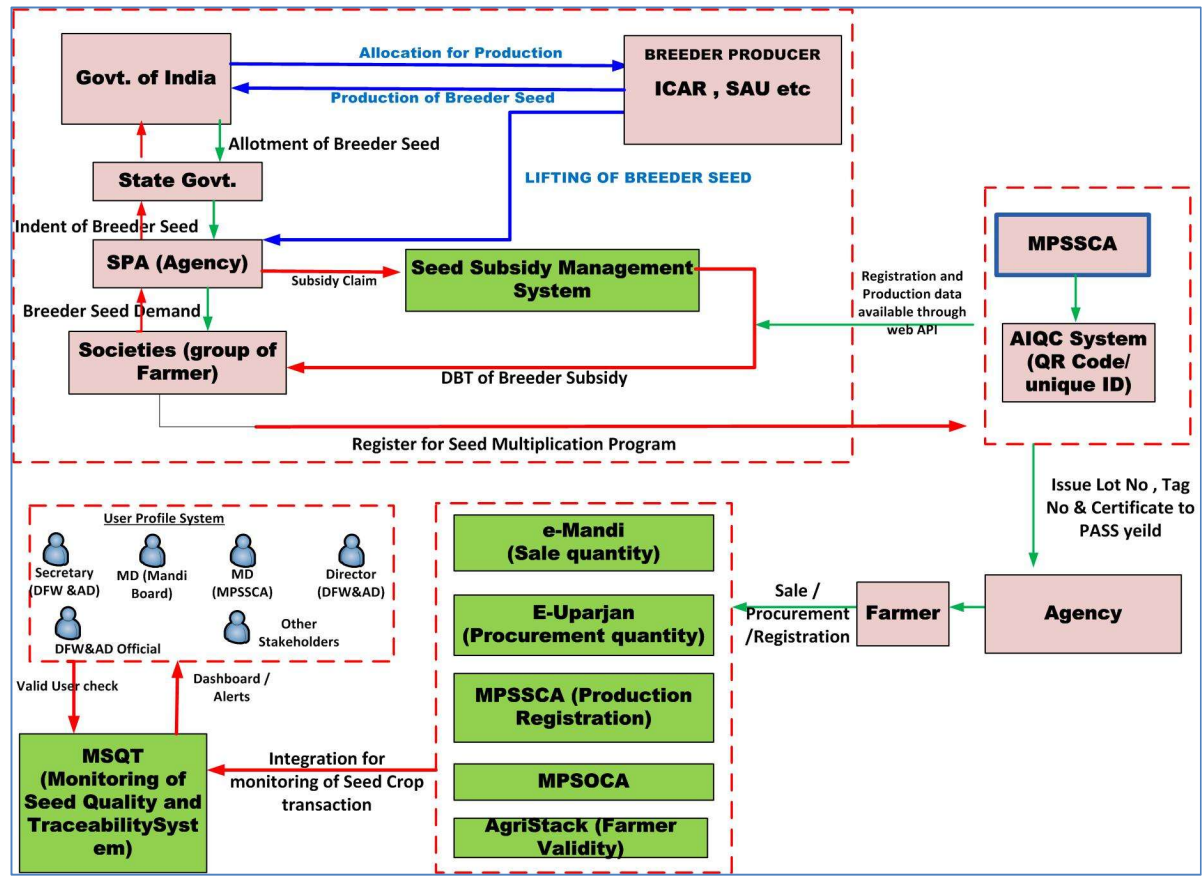

Portal /System	Integration Objective
e-Mandi Portal	Monitoring and cross verification of seed crops being sold in e-Mandi
e-Uparjan Portal	Monitoring and cross-verification of seed crop related registration and MSP procurement transactions.
AgriStack Portal	Beneficiary validation (i.e. cross verification of Farmer and its land & crop grown data)
Employee User Profile	To validate the user profile and role-based access
Seed Subsidy Management system	To verify the Seed Procurement with Seed Production for subsidy distribution This will build a Breeder to Certified traceability within state.

a. Key Outcome

- End -End Seed Traceability – Track seed movement at every stage

- Farmer Authentication – Ensure seed reach genuine farmer only
- Integration with e-Mandi, e-Uparjan & Agristack– Real time cross verification of data
- Use of QR Code /Batch Tagging – Prevents Fake & duplicate seed
- Regular Monitoring and Audit – detect diversion and act

b. Seed /crop monitoring (of Procurement, Certification and Quality testing) and traceability Flow

c. Expected output

- **Transparency** Real-time monitoring of breeders and foundation seed mechanisms across the entire certification program.
- **Fake Seed Prevention** Traceability and farmer verification will minimize fake or mixed seed circulation.
- **Farmer Authentication** Direct use in the seed certification program to validate genuine beneficiaries.
- **Better Monitoring** Cross-verification with mandi, procurement, and uparjan systems will help detect misuse or diversion.
- **Centralized Reporting** Integrated dashboards will enable state-level monitoring, audits, and decision-making.

A. Contract Agreement

[The successful Bidder shall fill in this form in accordance with the instructions indicated]

THIS AGREEMENT made the [insert number] day of [insert month], [insert year].

BETWEEN

- 1 [insert complete name of Department], a [insert description of type of legal entity, for example, an agency of the Ministry of of the Government of {insert name of Department}, and having its principal place of business at [insert address of Department] (hereinafter called “the Department”), of the one part, and
- 2 [insert name of Service Provider], a corporation incorporated under the laws of and having its principal place of business at [insert address of Service Provider] (hereinafter called “the Service Provider”), of the other part:

WHEREAS the Department invited Bids for and has accepted a Bid by the Service Provider had been selected as Highest Scorer bidder

The Department and the Service Provider agree as follows:

1. In this Agreement words and expressions shall have the same meanings as are respectively assigned to them in the Contract documents referred to.
2. The following documents shall be deemed to form and be read and construed as part of this Agreement.
 - i. This Agreement
 - ii. The Letter of Acceptance
 - iii. Letter of Bid - Technical Part
 - iv. Letter of Bid - Financial Part
 - v. The Addenda Nos. (if any)

IN WITNESS whereof the parties hereto have caused this Agreement to be executed in accordance with the laws of Government of Madhya Pradesh on the day, month and year indicated above.

For and on behalf of the Department:
